

# Dawson Trucking, Inc.

Valley, Washington

TPM Member Since September 2003

Dawson Trucking Inc. has been a family owned and run business since 1979. Dennis and Dawn Dawson started the company as a local contract trucking company.

Dennis and Dawn saw a need for a sand and gravel quarry to supply the local area with aggregate in 1990. Later they added the excavation division for home site prep and road building.

Their sons, Doug and Duane Dawson, began working for the company part-time during their high school years and became full-time employees after graduation.

After years of providing the local tri-county area (Valley, WA) with services in both residential and

is quality and its employees work hard to make sure concrete or aggregate product arrives on time and ready for any project.

As Dennis and Dawn Dawson retired in December of 2009, the Dawson brothers, looked forward to fulfilling the area's construction needs. Doug and Kay Dawson along with Duane and Shannon Dawson and their crew provide a complete range of services, from products and equipment to complete excavation

commercial aggregate and excavation earthwork, the Dawson's considered the opportunity to add another division to their company. Ready-mix concrete was a good fit with their existing operation, so in late 2007, Doug and Duane purchased a new concrete batch plant and four mixer trucks, expanding the family operation with D.T.I. Ready Mix. The company mixed the first load of concrete and have been going strong ever since. Today, the fleet consists of 10 mixers and 10 dump trucks. The company goal

project; clearing for a building site; making new driveways; plus any other project that might be designed.

Dawson Trucking is a pillar in the Valley, Washington community and surrounding areas. Clients depend on Dawson Trucking to provide experienced and professional excavation and concrete work.
