

Yancey Pallet, Inc.

Othello & Puyallup, Washington

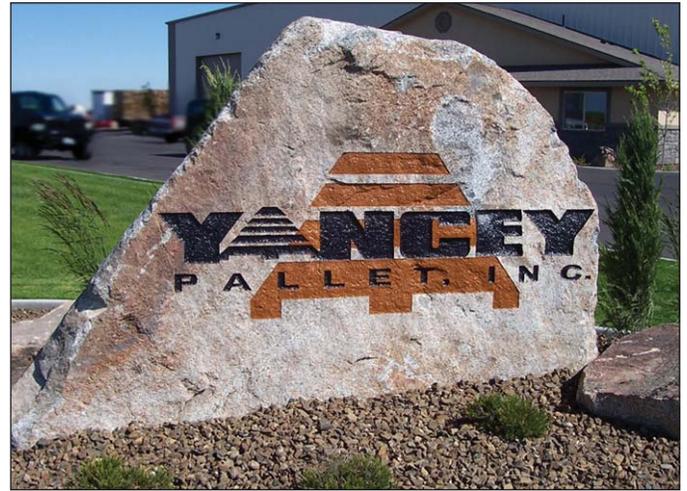

TPM Member Since October 2015

Yancey Pallet, Inc. has a history of providing premier quality pallets and services to a broad base of satisfied customers throughout the Northwestern United States. Over twenty years in the pallet industry brings Yancey Pallet the experience and volume to handle customers large and small on a tailored basis.

Yancey Pallet was started by Ron Yancey, LeAnne Yancey, and their son, Justin Yancey. It was a small start-up; intended to supplement the family's farming income. Original customers were local manufacturers who knew the Yanceys. The customer base grew and the company eventually added employees, equipment, and services to their portfolio.

Centrally located in Washington's Columbia Basin and in Puyallup, Yancey Pallet provides pallets and pallet services to

Yancy truck pulling a flatbed trailer.

customers (as far as 720 miles away) on a year-round and seasonal basis. The outstanding and reliable customer service, pallet quality, and pallet availability are unsurpassed in the pallet industry, which makes Yancey Pallet a first class provider for the needs of a large variety of shippers. Yancey Pallet maintains its own trucking fleet, constant monitoring and inspection of pallet quality, and year-round work crews, thus assuring excellent service.

Yancey Pallet remains committed to relieving customers of their pallet concerns by providing pallet solutions. Its customer service is tailored to fit the customers' needs. Yancey Pallet welcomes new customers and enthusiastically takes care of existing customers alike.

Yancey Pallet builds new pallets to its customer's specifications including size, lumber type and board coverage. Utilizing industry guidelines and customer specifications, Yancey Pallet can design a pallet that meets the client's needs of product type and weight requirements.

The company offers clients certified and stamped heat-treated shipping pallets per the standards set by the International Plant Protection Convention and monitored by Pacific Lumber Inspection Bureau. All new and recycled heat treated pallets are ISPM-15 compliant. Yancey Pallet maintains a large inventory of heat treatable products. The heat treatment process is done in a propane gas kiln. The kiln heats the pallet to a minimum

core temperature of 56 degrees centigrade for a minimum of 30 minutes. Learn more about heat treatment service by contacting the sales department at 877-331-0442 or by email at yanceypallet@yanceypallet.com.

Besides providing USDA #1 or #2 48 x 40 4-ways, and custom-sized pallets that meet all ISPM-15 requirements, Yancey Pallet can also build a new pallet using recycled materials to the client's specifications. Repairable and un-repairable pallets are utilized in its recycling program. Yancey Pallet is dedicated to providing a green friendly business to its customers. Pallet cost is a high concern, and the Yancey Green Services can help reduce the cost and eliminate waste.

Heat treated pallets are given the stamp of approval!

Inside the facility employees work to produce pallets.

Pallets that come into Yancey Pallet's yard are 100% recycled. Pallets are either recycled into reusable pallets or they are ground up into wood chips and reused in various applications. Nails are separated from the pallets and recycled. The company can repair your specific pallets and return them to you saving you the cost of purchasing new pallets and reducing pallet waste, or buy back your usable or repaired surplus. This program removes unused pallets from your site and offers you a cost benefit. Yancey Pallet can dispose of junk pallets or any other recyclable materials on your site.

Yancey LLC is a custom freight heavy-hauler specializing in maximizing the load to reduce or eliminate the need for multiple trips. Many of its trucks are equipped with 4-axes

and are licensed for the maximum allowable tonnage. Yancey LLC pulls its own trailers which are also specialized to haul the maximum amount of freight. Its trailer fleet includes: flat beds, dry vans, refrigerated vans, side dumps and walking floors. In addition to hauling pallets, Yancey LLC regularly hauls wine and wine products, packaging materials, cased french fries, lumber, equipment, and agricultural commodities such as: corn, potatoes, and hay.

Yancey Pallet provides the best of new pallets and competently reuses and recycles the wood products that have served their purposes. From start to finish, Yancey Pallet will provide a level of service that will meet your needs.
